

# Phonological Awareness Matrix

Name \_\_\_\_\_

Aim	Capacity	Capacity Breakdown					
To improve children's reading skills	Phonological Awareness	If someone reads a sentence to me I can tell how many words there are in the sentence.	1				
		If you say a word I can tell you words that rhyme with it.	2				
		If there are three words I can tell which two rhyme.	3				
		I can break words into syllables and clap the syllables.	4				
		I can say the word if you say the syllables.	5				
		I can identify initial sounds.	6				
		I can identify final sounds.	7				
		I can identify middle sounds.	8				
		I can tell you what a word is if you sound it out for me.	9				
		I can count the number of sounds in a word.	10				
		I can take the first sound off a word and tell you the word that is left.	11				
		I can take the second sound out of a word and tell you what word is left.	12				
		I can read nonsense words.	13				

I have heard of this

I can tell you what it is

I can do this

I use it as a decoding strategy
